PRESIDENT'S MESSAGE

This 22nd annual edition of *World Motor Vehicle Data* contains more information about our worldwide industry than ever before. Additional tables have been added to make this edition an even more valuable resource document.

World Motor Vehicle Data continues to be one of the most important and reliable sources of information on production, imports, exports, registrations and sales of motor vehicles around the world.

Thomas H. Hanna
President

PREFACE

This statistical compilation of international motor vehicle data through 1984 includes production totals by manufacturers as well as by country. Since it is necessary to use different data sources from year to year, there are occasional differences in the number reported for various classes of vehicles for some countries. This is due to the lack of uniformity of definitions for certain vehicles. In such cases, car, truck and bus data vary from one source to another and, accordingly, in the year to year data reported.

Although special efforts have been made to segregate vehicle assembly data from production data, the world totals for production may include some duplication since it is not possible for all countries to identify assemblies from production.

The data in this report were supplied by foreign government agencies, trade associations, private services and the press. It should be noted that the bases on which the data are reported will vary. For example, vehicle output may be measured in terms of production, shipments, or factory sales. New vehicles sold may be measured in terms of retail sales or new registrations. Imports and exports are subject to problems of compilation and definition. As a result, data accuracies vary and international comparisons are, of course, affected by these discrepancies.

Data compiled by MVMA from various overseas sources. Information was obtained from published reports issued by various vehicle associations outside the U.S. and from a number of other sources considered reliable. Therefore, and because of the numerous complex factors involved in determining vehicle ranking worldwide, MVMA does not assume responsibility for the above classification.

Data compiled by MVMA from various overseas sources. Information was obtained from published reports issued by various vehicle associations outside the U.S. and from a number of other sources considered reliable. Therefore, and because of the numerous factors involved in determing vehicle ranking worldwide, MVMA does not assume responsibility for the above classification.

Total Sales January to December 1983	272,822

NOTE: All the amendments and corrections reported in the 1984 monthly issues of the Naamsa Car Sales Returns have been incorporated in the 1984 Cumulative Sales Return.

The use of the term "Variant" in the summary denotes that the model has more than one body type (i.e. 2-door, 4-door and station wagon) on the market.

As a result of a company name change, sales of Mercedes-Benz and Honda motor cars, previously reported under the heading UCDD (Pty) Ltd, were with effect from March, 1984 reflected under Mercedes-Benz of South Africa (Pty) Ltd.

As a result of a company name change, sales of Mazda, Mitsubishi and Peugeot motor cars, previously reported under the heading Sigma Motor Corporation (Pty) ltd, were with effect from August, 1984 reflected under Amcar Motor Holdings (Pty) Ltd.

Since 1st January, 1984, Leyland South Africa (Pty) Ltd have marketed various imported vehicles in South Africa and such sales are recorded under the heading "Other Makes" in respect of the Jaguar, Rover, Mini and Range Rover model ranges.

The heading KE I.H/LD under Adjoining Territories shows sales into Bophuthatswana, Transkei, Venda, Ciskei, Gazankulu and Lebowa.

* 1970-1984 data for Great Britain.

NOTE: From October 1982 all general goods vehicles less than 1525 Kgs. unladen weight are assessed for vehicle excise duty at the same rate as private vehicles. The previous private car & van taxation class has been replaced. The above figure shows for the first time registrations by actual body type. The 1982 figures are not comparable with previous years.

* Revised.

(1) Production by specialist body building establishments. Statistics represent production of bodies for partly finished motor vehicles reported by motor vehicle manufacturers. Bodies produced by motor vehicle manufacturers for use in their own plant are excluded. Bodies intended for export or sold for repair work, and conversions (or any work done on old vehicles) are also excluded.

(2) Vehicles over 2,900 mm wheel base.

(3) Other than semi-trailers. Prior to July 1982 includes tankers for dry powder or granular materials.
